Education

State University Springfield, IL

B.S. in Computer Science, Cybersecurity Concentration; GPA: 3.72 *Aug 2025 – May 2029*

- **Minors:** Mathematics, Electrical Engineering
- **Relevant Coursework:** Data Structures & Algorithms, Computer Organization, Discrete Math, Linear Algebra

Experience

Undergraduate Research Assistant Feb 2026 – Present

State University Systems Lab *Springfield, IL*

- Automated benchmark runs with Bash and Python, replacing a manual 2-hour process per run
- Benchmarked three Linux sandboxing approaches (seccomp, gVisor, Firecracker) for a faculty research project

Projects

PacketScope | *Python, Scapy, SQLite, Flask* Jan 2026 – Present

- Built a home-network traffic analyzer in Python that flags port scans and unusual DNS lookups using Scapy
- Stored 2M+ packet summaries in SQLite with indexed queries, cutting dashboard load time from 9s to under 1s
- Wrote 40 pytest cases covering the detection rules and parser edge cases

CTF Writeup Generator | *Go, Markdown, GitHub Actions* Oct 2025 – Dec 2025

- Wrote a Go CLI that turns terminal session logs into formatted CTF writeups for the campus security club

Technical Skills

Languages: Python, Go, SQL, C, Bash
Developer Tools: Git, Linux, Docker
Frameworks & Libraries: pytest, Flask

Leadership & Activities

Member, CTF Team Aug 2025 – Present

Cybersecurity Club *Springfield, IL*

- Compete in monthly CTFs focused on web exploitation and reverse engineering

Awards

Dean's List, State University Fall 2025
